

## **KAMJO BED WARRANTY – 20 YEARS**

### **The warranty covers:**

- Breakage of bed springs, headboard, bed base, and wooden frame
- Damage to springs, base, and wooden frame caused by manufacturing defects
- Electronics of motorized beds, for 3 years from the date of purchase

### **The warranty does not cover:**

- If the bed has been damaged, carelessly or incorrectly used, or not maintained
- If the bed has been disassembled, modified, or repaired independently
- Bed accessories

---

## **BED DELIVERY & INSTALLATION**

- For bed installation, the path to the bedroom must be free of obstacles and the old bed must be removed. If necessary, we recommend covering the floor.
- We are not responsible for damage caused by failing to remove obstacles or covering the floor.
- If installation is not possible due to narrow staircases or other overly complex conditions, the transport provider has the right to refuse installation.
- If installation cannot be carried out under normal conditions, we must be notified in advance. Together with the transport provider we will determine whether the service can be provided; in such cases, an additional fee may apply.
- If installation is only possible via a balcony, we do not provide such a service. In this case, the bed will be delivered in front of your building.

---

## **BED CARE**

To ensure long life for your bed, please follow these guidelines:

- Turn the top mattress over when changing bed linen
- Turn the main mattress over every 3–4 months
- For cleaning the bed upholstery, we recommend using professional cleaning services
